## AMERICAN REVOLUTION

THE AUGMENTED EXHIBITION

ON VIEW MARCH 20, 2026, TO JANUARY 17, 2027

### Live the Revolution

Immerse yourself in interactive 3-D reconstructions of the defining moments of the Revolution, using a HistoPad. Travel to Boston for a tea party, Philadelphia to sign the Declaration of Independence, Yorktown to declare victory, and, of course, Versailles to sign a treaty. Along the way, meet the diverse cast of thinkers, leaders, soldiers, and everyday men and women that made this incredible story happen.

Beyond the thirteen colonies, discover the pivotal role played by the Gulf South in the American Revolution. Learn about how New Orleans—then a Spanish colony—served as a secret

logistical hub for the Continental Army. Follow the military campaign of Spanish governor Bernardo de Gálvez and his multicultural coalition of free men of color, Acadians, and Indigenous volunteers as they score momentous victories against the British—from New Orleans to Pensacola.

### A Story for Everyone

Developed with a team of leading historians and scholars, this exhibition celebrates the figures—both well and lesser known—who shaped the United States.

This exhibition is an opportunity to share the Revolution in a fresh way that speaks to the hearts and minds of the diverse American people today.

*Available in English, French, German, and Spanish*
