

TEACHER WORKSHOP

Coastal Land Loss and Coastal Restoration

Thursday, July 2nd | 9:00 am-12:00 pm

New Canal Lighthouse - 8001 Lakeshore Dr., New Orleans

Join us for a professional development workshop on Coastal Land Loss at the New Canal Lighthouse in New Orleans! In this lesson, teachers learn what drives coastal land loss and how to mitigate it. We provide materials to use in the classroom for students to build and test their own model of the Mississippi River, and simulate adding features such as diversions, levees, and more. This PD is open to K-12 teachers in the Lake Pontchartrain Basin.

- **Individuals or cohorts welcome**
- **Free STEM minikit included**
- **Easily aligned to Scope and Sequence & LSSS**
- **10 spots available - first come, first served!**
