

WETshop 2026

June 8-12, 2026

LDWF Marine Research Lab, Grand Isle, LA

**Application
due April
1st**

Application now open!

Apply at bit.ly/ApplyWETshop

What is WETshop?

A five-day coastal awareness workshop for formal and non-formal educators in Louisiana. Through WETshop, selected participants work with scientists and educators to learn about Louisiana's coastal wetlands through place-based learning opportunities. Participants will complete a wetland stewardship project with students, peers, and/or community members after completion of the summer workshop.

Highlights & Experiences:

- Receive 50+ professional contact hours
- Access to numerous classroom resources
- Lodging and meals provided
- Fisheries management techniques
- Water quality sampling and testing
- Barrier Islands and their role in coastal health
- Visits to oyster hatchery/farm and coastal restoration sites
- Tour one of the largest oil ports in the US
